## Food Defense Statement

January 15, 2026

In an effort to protect our products from acts of intentional adulteration, Milne Fruit Products, Inc. has developed a comprehensive Food Defense program using the FDA Food Defense Plan Builder. The program includes, but is not limited to, a vulnerability assessment, mitigation strategies based off of identified vulnerabilities, mitigation strategy management, training, and record keeping. Considerations for food fraud in raw materials are taken as apart of each raw material risk analysis.
